

## EUROLITE LED Neon Flex 230V EC green 100cm

Flexible tube with Neon LEDs for decorative lighting

No. 50499515

GTIN 4026397469424

**RRP: 35,58 €**

19% VAT included

### description:

Save more - see more!

Neon light always had a very specific, striking character. And this is the reason why neon light has established itself on advertising signs or on fairgrounds for instance. With the introduction of LED neon flex it became possible to save costs considerably. Due to the flexible form, design options additionally got more and more. And everything without a loss of luminance. The EC version of the LED neon flex now turns over a new leaf. Changes to the existing neon flex are as follows. On the one hand the eco version is clearly cheaper - so you can save both energy and asset costs. On the other hand the colors (two different white, yellow, green, red and blue) of the respective neon flex can be recognized even when the lights are out. This is due to the plastics' special coloring and it gives the opportunity to deck out a carousel, a car bumper or what the case may be also at daylight.

### features:

- Inexpensive economy version of the successful LED Neon Flex
- LED Neon Flex creates the effect of conventional neon light
- No complicated installation, no fragile glass nature, no potential shock hazard, no high maintenance costs and no high power consumption
- Built of optimally protected LEDs in a full-plastic round tube
- Long LED life
- It is extremely flexible and can be bent in any radius as small as 4 cm
- Energy-efficient LED lighting reduces operating costs by up to 90 %
- No transformers required
- The LED Neon Flex can be custom cut and shaped on-site
- Cutting marks every 100 cm
- You can order as many pieces of the given length as you like, up to a

- maximum total length of 100 m
- One roll contains 50 cuttable pieces with 100 cm each
- Cut it on the cutting mark, connect the power cord and endcap, and your new neon light effect is ready to use
- Extensive accessories available
- Splash-proof tube (IP44), qualified for outdoor use, i.e. architectural borders on high-rise buildings, casinos, pathway lighting, amusement park rides, cove lighting, signage, etc.
- Available in 4 various colors and 2 different color temperatures of the white LEDs
- Power cord and installation materials must be ordered separately
- Not compatible with standard version
- Color generation: G green

**technical data:**

Power supply:	230 V AC, 50 Hz via optional power cord
Power consumption/meter:	6 W/m
Cutting unit:	100 cm
LEDs/unit:	30
Lamp distance:	approx. 3.3 cm
Protection grade:	IP44
Dimensions (L x W x H):	100 x 14 x 26 mm
Max. length:	100 m
Weight:	0.5 kg
IP classification:	IP44
Height:	2,6 cm
Depths:	1,4 cm
Width:	10 cm
Ecodesign regulation:	Yes
Special product:	Not designed for household room illumination
Purpose:	Show effect lighting
